EDUCATION

University of Michigan - Bachelors of Science in Computer Science - GPA 3.2/4.0 (May 2020)

• Minor in General Philosophy

EXPERIENCE

Software Engineer (Sterling Computer Consultants)

• Working in a full-stack position (C#, SQL, Javascript, MVC/LINQ/Kendo) to develop Finys, a casualty and property insurance program for client insurance companies.

(2020 - Present)

- Currently an agile team leader representing our company with the Virginia Farm Bureau, who currently operates a ~\$400 million book of business.
- Cultivated important skills including interpersonal communications, team dynamics, dependability, client-facing management, providing estimates, and delegating team tasks.
- Maintaining and developing a 10+ Terabyte SQL database across QA & production environments.
- Providing solutions to both live production issues and in-development processes while interfacing with various levels of client professionals.

Significant University Courses: Data Structures & Algorithms, Mobile App Development &

Entrepreneurship, User Interface Development, Web Systems, Introduction to Computer Security, Database Management Systems.

University Projects:

- Insta485 (Python/HTML) -
 - Performed full-stack development on an Instagram-like website successfully hosted on AWS.
 - Constructed static pages from templates as well as both server-side/client-side dynamic pages.
 - Applied version control and remote teamwork using git/GitHub with a team of three students.
- Delivr App (Java/XML) -
 - Created front-end code for an Android mobile app focused on grocery/food delivery services.
 - Utilized agile development methodology in sprints with a team of seven other students.
 - Successfully published on the Google Play store and presented at the UofM Design Expo.

*Some projects are viewable on my personal website, jrswart.com, hosted through AWS and SSL-certified.
